

HARMONICA MAKERS OF GERMANY AND AUSTRIA

HISTORY AND TRADEMARKS OF HOHNER AND THEIR MANY COMPETITORS

A delightful insight into the history and culture of the harmonica industry. A world-wide phenomenon, the harmonica is the most produced instrument ever, with around 2,500,000,000 having been created since its invention in ca. 1825.

Over a decade of research has gone into the writing of this book, which details harmonica production from its birth-place in Vienna, through to the large industrial centers of Trossingen and Klingenthal. A valuable resource for collectors, scholars and fans alike.

- ✓ 192 pages of information and illustrations
- ✓ 100s of images, including full-color reproductions
- ✓ introduction to the harmonica history in general
